Business of the Month – Kathleen Anderson, Life Success Consultants

1). Please tell us about your business and what you do. I'm a Life and Business coach with Bob Proctor's Life Success Consultants, and I

work with individuals and companies in the area of personal development and behavioral change...helping

them to improve results in every aspect of life... Family, Finances, Health, Spirituality, Relationships and Career Achievement

2). What prompted you to choose this career path?

I have always loved this type of work. If you saw the books I read, you would understand. I am very passionate about helping people get over their fear of "doing" and to teach them HOW to think vs. letting "other people" making the decisions for them. We ALL have the ability to BE, DO and HAVE whatever we want!

3). What would you say is unique about your business?

I believe what is unique about being a Life Success Consultant is that I "teach" with a curriculum HOW to change vs. just "motivating". When you "Motivate" it's great for about 3-4 weeks then we go back to the way "we were". I teach and guide you to make the change in your thought behavior for lasting and permanent results. If it doesn't work, I will guarantee your misery back! "What would you do if you KNEW you wouldn't fail"?

4). How do you see your business growing and changing in the next five years?

I see it growing by leaps and bounds! People need us! If you're not getting the results you want in your life, career, financial, personal, physical...you HAVE to change the way you think! I will be doing workshops, seminars and determined to spread this concept around! I also conduct FREE Mastermind Groups based on the book, "Think and Grow

Rich". It's a 10 week book study. What it is, basically, is a FREE trial run on what coaching and our programs are about. You will come out of this Mastermind a more positive, self assured person! The book is FANTASTIC.

5). Please tell us a bit about yourself.

I was born and raised in Connecticut. I moved out to Missouri 15 yrs ago. My husband and I have 9 children, 25yrs down to 9yrs old and two grandchildren. I love Sport, Nascar, reading and learning my craft.

6). Describe for us one of the highlights of your career so far.

One of my absolute highlights in my career was to personally meet Bob Proctor this past June. Bob Proctor is the CEO of the company I work for and one of the main contributors of the DVD "The Secret". He sat with me and gave me some incredible advice. Bob Proctor promised to sign my book and took the time to seek ME out to fulfill his promise. I am VERY proud to work with a gentleman with such high standards and such a giving soul.

7). Anything else you'd like to share?

I would highly encourage people with "like" minds, who want to succeed and have a "higher awareness" to call me at 903-2086 and sign up for a FREE Mastermind Group. Only
